

# WWW'14 Demo Chairs' Welcome

It is our great pleasure to welcome you to the Demo Program of WWW 2014. This program provides a forum for researchers and practitioners to demonstrate novel systems in the conference's areas of interest. This year, we accepted 28 excellent demos from 85 submissions. The accepted demos together cover a wide range of topics in the frontier of WWW research, and are arranged into a 2-day program running from Apr 10 to 11.

We would like to thank all members of our program committee, who evaluated the submissions based on originality, significance, and clarity of writing. It is their hard work that has guaranteed the quality of this program. We would also like to thank the general chair Prof. Chin-Wan Chung for his guidance and advice in organizing the program, and the local support team for their work in setting up the venue where the demos will take place.

Program Co-Chairs

**Jaewoo Kang** (Korea University, Seoul, Korea)

**Yufei Tao** (Chinese University of Hong Kong, Hong Kong, China)
